Subject: End-of-Year Project Internship.

Dear Sir,

I am currently a student at the “École Normale Supérieure de l'Enseignement Technique” in Mohammedia (ENSETM), specializing in Software Engineering and Distributed Computer Systems (GLSID). I am actively seeking an end-of-year project internship starting from Jun 1st.

Recently, I completed an internship at Le Premier Systeme, where I contributed to a ticket reservation system for Chellah. This project involved developing a backend with Spring Boot and creating frontend applications for the back-office and point of sale using Angular and Angular Material. Additionally, through my final year internship at GEBS in Kénitra, I have gained practical knowledge in various tools such as PHP, HTML, CSS, Java, Laravel, Bootstrap, JavaScript, JQuery, Ajax, and MySQL.

I am very enthusiastic about the opportunity to join your esteemed company. Applying my skills in a professional setting that delivers innovative solutions across various sectors is a significant step forward in my career. I am confident that my background and eagerness to learn will allow me to contribute effectively to your team.

I am highly motivated and look forward to the possibility of discussing how my background, skills, and enthusiasm can benefit your company during an interview.

Sincerely,

Ahmed Mrabet
